

TRIMLINE

**TRIMLINE MAKES
IT POSSIBLE.**

2004 FITNESS LINE

TRIMLINE

When the first Trimline treadmill was sold in 1994, it had passed the most strenuous quality tests the industry had seen. It had logged hours of abuse, repeated scrutiny and hundreds of "miles" of road time - all with some of the toughest critics in the business...our family. We had built the treadmill that we wanted to run on. We still do.

Today, Trimline is the #1 seller in the world among mid-priced treadmills. Our 2004 line is the result of years of research and development, but perhaps more important, the result of our own relentless determination to create the treadmills that we enjoy using. And that's important, not only to us, but to you. As soon as you step foot on one of our treads, you'll feel the comfort, sense the power and reliability, and understand the difference that is uniquely Trimline.

The Trimline family of products is recognized today as the best treadmill value on the market. That reputation has been earned by listening to our customers and by sticking to what got us this far - a dogmatic search for perfection.

But enough from us. Go ahead and step up. See for yourself what quality and value feel like. We're confident you'll enjoy our treadmills just as much as we do everyday. And thank you for allowing us to help you reach your fitness goals.

Yours in fitness,

Bill Hebb

Trimline Treadmills

BUILT TO LAST A LIFETIME

HIGHEST USER SATISFACTION • LOWEST PRODUCT DEFECT RATE • QUALITY CONSTRUCTION • IRON CLAD RELIABILITY
HUNDREDS OF THOUSANDS OF SATISFIED OWNERS

THE TOUGHEST QUALITY STANDARDS IN THE INDUSTRY

DF Hebb Industries, Inc., manufacturer of Trimline, is committed to design and production standards that are second to none. Rigorous testing methods insure that every Trimline performs flawlessly, day after day, year after year.

HEAVY DUTY POWER PLANT

- Commercial Grade Motor in Every Trimline
- Heavy Duty Motor That Packs More Horsepower (Not just peak horsepower that other treads boast, but high "continuous duty" ratings, the industry standard for quality)
- Smoother and Quieter Performance

AMERICAN CRAFTSMANSHIP INSIDE AND OUT

- Heavy Gauge Steel Frames
- Premium Quality Motors, Belts, Rollers, Electronics, Controllers
- Meticulous Assembly and Testing in USA Manufacturing Plant
- Assembled in the USA*

* All Trimline treadmills are assembled in the USA except for the T305, T315, T325 and T335HR

WE HAVE A RENEWED FOCUS.
IT IS A TRIMLINE MISSION
TO OFFER PRODUCTS THAT
ARE THE MOST SIMPLE,
SMOOTH, AND STURDY AND
ARE THE BEST QUALITY AT
EVERY PRICE POINT.
CALL IT 3SQ.

WORRY-FREE, HASSLE-FREE 30 YEAR WARRANTY

If a Trimline fails to perform, we make it right with the best warranty in the industry.

- 30 years on the frame
- 30 years on the drive motor
- Three years on parts and two years on labor: T360, T370HR and T380LC
- Two years on parts and one year on labor: T305, T315, T325, T335HR, T340, T345, T350HR and T355HR

Warranty refers to in-home treadmill use and may differ in some international markets

Trimline Treadmills

THE NEXT BEST THING TO A PERSONAL TRAINER.

FEATURES THAT MOTIVATE

Say goodbye to boring workouts, sore joints and confusing programming directions. Every Trimline is designed, built and tested by treadmill users for treadmill users. The result is features that make sense and motivate at the push of a button. Features that make a half hour workout seem like minutes.

SUPERSOFT™ IMPACT ABSORPTION SYSTEM

- SuperSoft™ Ortho Walking Belt
- Low Friction Reversible Phenolic Hardboard
- 1" Thick Deck Base
- Eight Variable Durometer and Height Rubber Shock Absorbers

SOFTDROP LOWERING SYSTEM

- Precision Hydraulics and Weighted Counterbalance Mechanism
- Hands Free Lowering
- Space Saving Design

SOFTRAK II IMPACT ABSORPTION SYSTEM

- 1" Thick Deck Base
- Softrak II Elastomer Shock Absorbers
- Premium Walking Belt
- Low Friction Phenolic Hardboard

All Trimline machines use balanced rollers for smoothness.

LOOK FOR THESE KEY FEATURES

so you know you will be getting a reliable and comfortable deck system.

For the added comfort of a softer, more compliant feel without compromising stability, this dual stage system provides maximum benefits and support for the most demanding workouts. Features a phenolic deckboard along with elastomer shock absorbers strategically positioned under the front section of the treadmill deck, allowing for maximum impact absorption where the foot lands.

"Walk, Jog and Run" Quick Keys are featured on the T335HR, T340, T345, T350HR, T355HR, T360 and

T370HR. These keys allow the user to store their own preferred speeds for a more personal workout. These keys are also great for use in a workout in which the user wants to do speed intervals.

"Hill, Mountain Pass and Peak" Quick Keys are featured on the T360 and T370HR. These keys allow the user to store their own preferred elevation for a more personal workout. These keys are also great for use in a workout in which the user wants to do elevation intervals.

Serious about getting the most out of every workout? Heart rate control may well be the most important

feature on any piece of fitness equipment. With Trimline's heart rate control, you're guaranteed the most efficient, productive and safest workout possible. Simply enter your desired target heart rate, or key in information to allow the computer to automatically calculate your heart rate based on your personal fitness goals. Trimline's onboard computer does the rest! While continually monitoring your heart rate the computer automatically adjusts the workout intensity to keep you in your target zone. It's like putting your heart and your workout on auto pilot!

Trimline's consoles offer a wide variety of challenging, motivating programs to help meet your unique fitness goals. Select one of numerous programs such as intervals, hill repeats, or beginning walker-all designed by exercise professionals committed to

helping you achieve maximum results in minimum time. Or, create your own workout. With Trimline's custom programmability, you can replicate your next 10k with hills and flats, program your favorite neighborhood run, or take on Pikes Peak... right from your living room!

Our WideStride running surface is a full 20" from edge to edge. The extra wide surface provides more room to enhance the comfort and safety of your workout.

Trimline's SuperSoft™ cushioning belt provides extra comfort and shock absorption to relieve stress to joints.

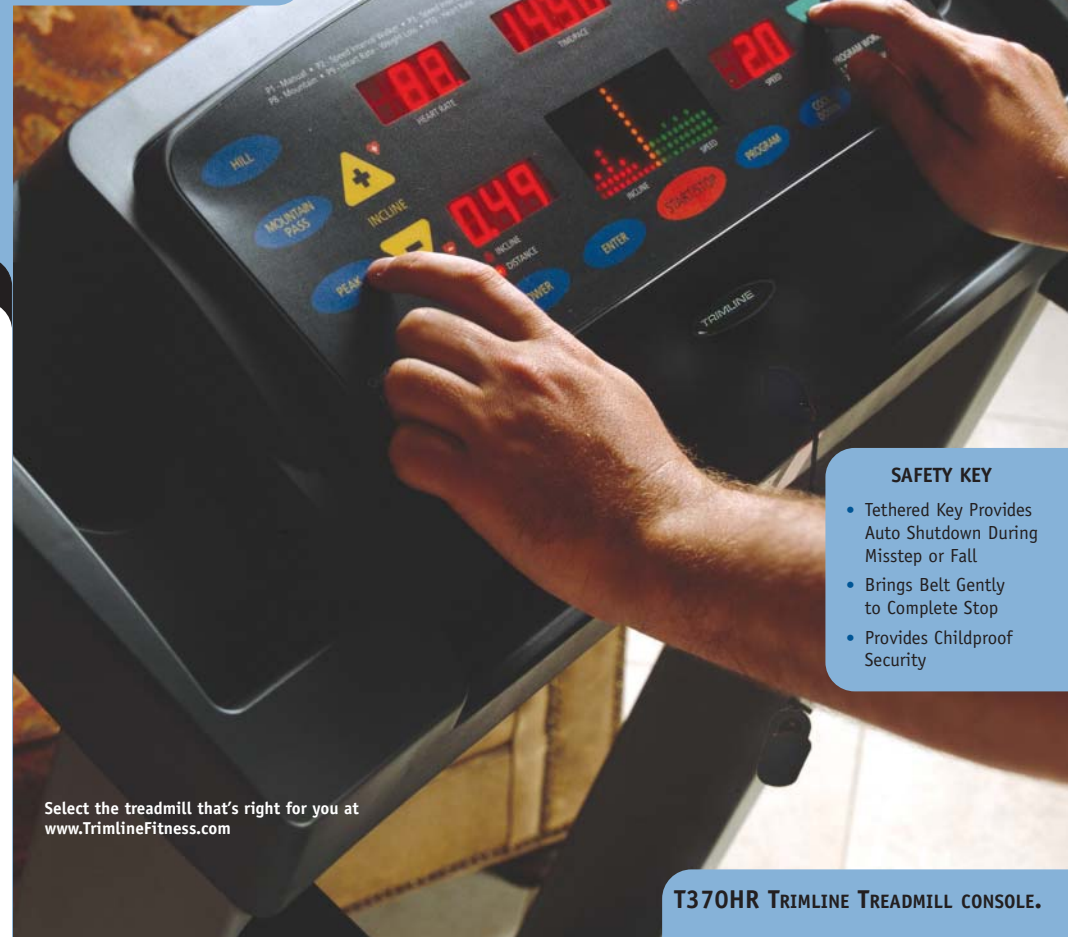

Ideal for taller users or anyone looking for the added security of a longer running surface. The extended length of this 57" running surface gives you ample room for extra long strides. Offered in 54" on the T345 and T355HR models.

SoftDrop comes standard on the T325, T335HR, T345 and T355HR models. This unique Trimline feature enables feather-light hands free deck lowering.

QUICK START, EASY VIEW CONSOLE

- Large Format Digital Displays
- Push Button Programming
- Preset, Custom and Heart rate Control Programs (Available on select models)
- Programmable Speed and Elevation Quick Keys
- Quick Start (Just press Power, then Start)

SAFETY KEY

- Tethered Key Provides Auto Shutdown During Misstep or Fall
- Brings Belt Gently to Complete Stop
- Provides Childproof Security

Select the treadmill that's right for you at www.TrimlineFitness.com

T370HR TRIMLINE TREADMILL CONSOLE.

Trimline Ellipticals

FULL-BODY MOVEMENT FOR THE ULTIMATE WORKOUT

Trimline Ellipticals offer full-body workouts. Trimline's all-direction resistance works every major muscle group while simulating the natural arm and leg motion of walking and running. The benefit: A go-at-your-own-pace, maximum calorie-burning exercise for your entire body that feels fun and invigorating.

E320HR KEY FEATURES*

- Easy-viewing LED readout displays a wide variety of programs to keep your workouts interesting and challenging
- Two heart rate control programs plus Trimline's unique results mode displays your average heart rate, average speed, average rpm, total calories and total distance
- Wireless Chest Strap monitors heart rate
- Premium-quality drive train uses a single-stage belt drive and electromagnetic resistance for whisper-quiet operation and rugged durability for years to come

E300 KEY FEATURES

- Oversized LCD computer monitor with easy-to-read display
- Console displays time, RPM, distance, calories, watts and heart rate
- Preset and custom programs accommodate any fitness level. Resistance is controlled by an Eddy Current magnetic resistance system providing quiet operation and maximum durability

- Easy-viewing consoles display large numeric readouts and one touch "Quick Start" for instant operation

- Use the dual-action resistance arms for a full-body cardio workout or grip the stationary horseshoe handlebars for lower-body-only exercising

**A MACHINE SO NATURAL—
IT'S LIKE AN EXTENSION
OF YOUR BODY.**

**TRIMLINE'S PATENTED
PRECISION PATH™
FOOT MOTION TECHNOLOGY,** featured on the E320HR, provides the perfect elliptical stride for the most natural feel and workout performance. Here's how Precision Path™ Foot Motion Technology creates a superior workout...

- **ELLIPTICAL GEOMETRY:** Precision Path™ travels a natural elliptical foot pattern, recruiting all your major lower-body muscle groups.
- **PEDAL ACCELERATION SPEED:** Pedal speed is designed to remain equal throughout the entire elliptical stride.
- **DRIVE TRAIN INERTIA:** Trimline has created the optimal inertia level to make exercising at any pace smooth and natural.
- **COMFORT AND EFFICIENCY:** Precision Path™ Foot Motion Technology minimizes stress to the ankles, knees and back commonly associated with other forms of exercise.

*The E320HR elliptical is warranted for 1-year on all parts and labor when used in a light commercial application such as a hotel or hospital (when utilized 5 hours or less per day)

EPINIONS.COM

TRIMLINE SETS WORLD RECORD

Paul Shields of Yorkshire, England set a new world record in May 2003 for a 48 hour treadmill marathon - 146.31 miles. Shields beat the old mark by almost 10 miles on a Trimline treadmill. The previous record was held by Dan Miller, who also accomplished his feat on a Trimline treadmill.

Warranty refers to in-home treadmill use and may differ in some international markets

TRIMLINE

TRIMLINE SUCCESS STORIES

"I've been using my elliptical six days a week for thirty minutes and can hardly wait to get up every morning to get on it. I just turned 55 last week and feel better than when I was 20 and the elliptical is going to help keep me that way, no problem! Thanks to the guys who designed and built one of the top elliptical machines out there, bar none!"

*--Alan Buchanan
Moncton, N.B.
Canada*

"I LOVE my Trimline treadmill. I swear it's the best treadmill I have been on! I like it more than the really expensive ones at the local gym. It is one of the best investments I have made! I use mine everyday. Keep up the great work on a great product!"

*--Laura Boshell
Augusta, GA*

"I just purchased an elliptical and I have never been so impressed with the quality of a piece of home fitness equipment. I actually look forward to a 45 minute fat burning session on it everyday! I love to do my cardio and fat burn early in the morning before work. You have a very superior product, and I thank you for it."
